

ZilStream 2.0: Development Completion Report

Leveling Up ZilStream in Every Way

Prepared for the gZIL Collective & the Zilliqa Community

January 2026

A Complete Rebuild for the Zilliqa 2.0 EVM Era

ZilStream launched in March 2021 and quickly became **essential ecosystem infrastructure**, powering **data feeds** for major platforms like **CoinGecko**, **CoinMarketCap**, and **DefiLlama**. This **report documents the successful completion of all grant milestones for the Zilliqa 2.0 EVM-compatible rebuild**, transforming the platform from the ground up.

Complete Platform Rebuild:

Modern web application with 72 custom UI components.

Real-Time Data Engine:

High-performance indexer processing blocks in under 1 second.

Professional Trading Tools:

TradingView charts with integrated swap functionality.

NFT Membership System:

Blockchain-verified membership with exclusive features.

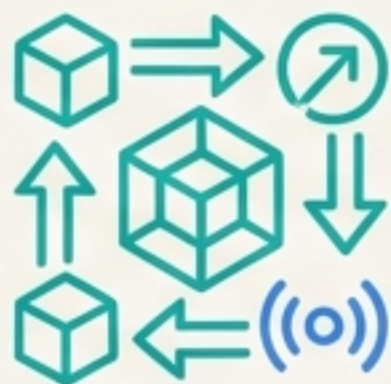

NFT Membership System: Blockchain-verified membership with exclusive features.

All Four Milestones Completed: 100% delivery on the \$40,000 grant commitment.

Our Original Mission: Catalyzing Zilliqa's Next Phase of Growth

The ZilStream 2.0 proposal outlined a comprehensive upgrade to transform ZilStream from a simple data dashboard into a fully live, permissionless, and interactive platform for the entire ecosystem.

Automated, Live On-Chain Integration

Pull data directly from the blockchain in real-time, with new tokens and pairs appearing instantly.

Dynamic Trading and Interaction

Professional charts, live trade feeds, and integrated trading.

Deep Blockchain Exploration

Browse and filter tokens, contracts, transactions, and wallets.

Enhanced Portfolio Management

Multi-wallet tracking, P&L updates, alerts, and data exports.

A Fully Automated, Live Market View

One of the core promises was automatic detection of new tokens and pairs. This has been fully delivered. The system is permissionless—new assets appear within seconds of creation on-chain without any manual intervention.

-  Browse all available trading pairs.
-  Filter by DEX protocol (e.g., PlunderSwap).
-  Sort by volume, liquidity, or age.
-  View real-time price changes.
-  Token pages include: Price, market cap, volume, liquidity, and transaction history.

Tokens

Listing of assets returned by the ZilStream API token endpoint.

Token	Price	Price (ZIL)	24h %	7d %	Market Cap	Volume (24h)	Liquidity
 Wrapped ZIL	\$0.00025	0.00058	+7.82%	+87.38%	\$2,292.7M	\$1,144,828	\$22.95M
 USD Coin	\$0.00	\$0.00	+15.83%	+14.33%	\$2,933.2M	\$85,288	\$2.07M
 Zilliqa-bridged USDT	0.0000985	0.000255	+10.83%	+15.98%	\$176.7M	\$23,738	\$1.97M
 Kalljo USD	\$0.035	0.0015	+18.32%	+70.33%	\$173.7M	\$20,878	\$2.16M
 Torch Liquid ZIL	0.003755	0.0005755	+55.88%	+58.92%	\$176.7M	\$23,488	\$2.27M
 Kalljo SEED	\$0.20	\$0.23	+10.38%	+47.28%	\$177.2M	\$10,568	\$1.97M
 PlunderSwap Staked ZIL	\$0.22	\$0.025	+30.62%	+110.36%	\$176.7M	\$3,908	\$0.37M
 ZilPepe ZILPEPE	\$0.00		+283.88%	+61.68%	\$5124M	\$3,988	\$60.97M
 Amazing Pool	\$0.00	\$0.00	+27.76%	+78.78%	\$118.2M	\$23,858	\$1.23M
 Governance ZIL	\$0.00055	\$0.025	+13.88%	+13.35%	\$70.068	\$1,688	\$0.13M
 Zoge Coin	\$0.068	\$0.000625	+8.53%	+13.58%	\$73.038	\$1,028	\$2.87M
 TacoCat	\$0.235	\$0.0020	+13.28%	+13.02%	\$47.838	\$4,718	\$0.81M

Professional Trading Tools, Directly on ZilStream

ZilStream 2.0 transforms the user experience by integrating professional-grade trading tools, eliminating the need to switch between different applications to analyze and execute trades.

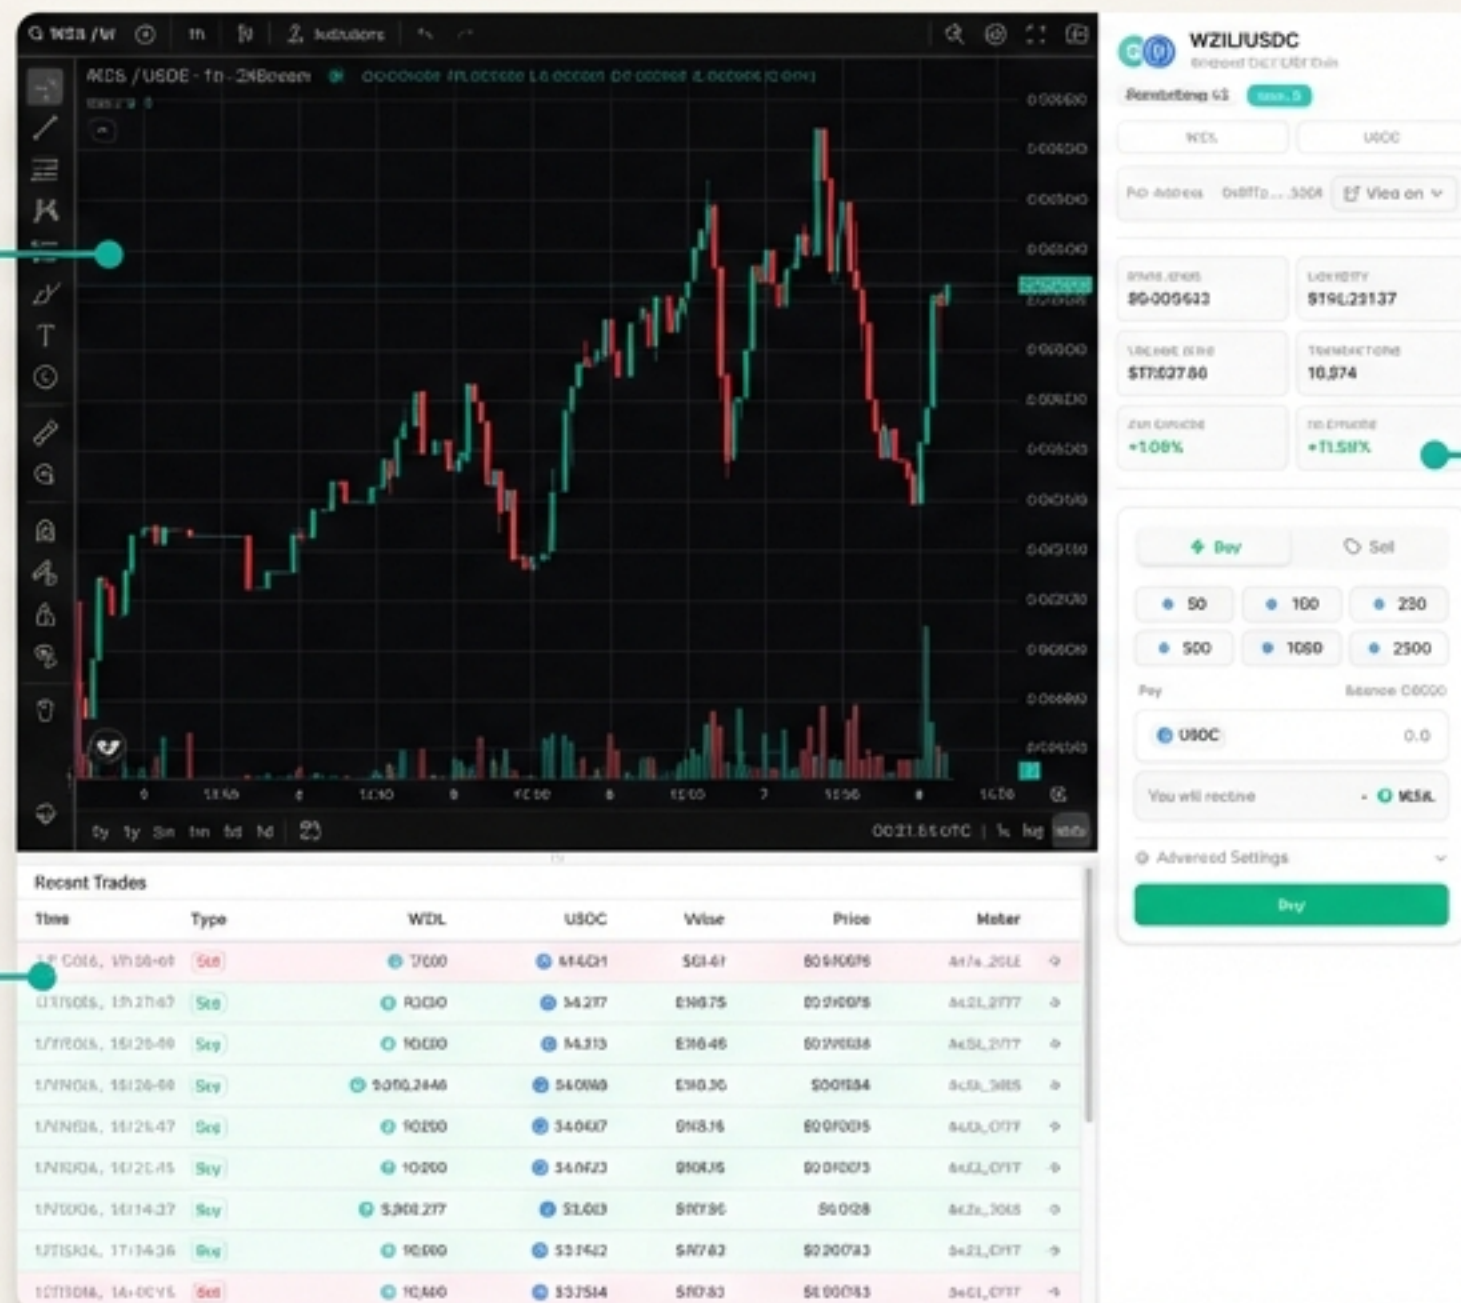

TradingView Charts

Full charting technology used by professionals, with multiple timeframes and technical analysis tools.

Real-Time Trade Feed

A live stream of individual trades as they happen, showing tokens, USD value, and the maker's wallet.

Integrated Swap

Execute trades directly on the page, with real-time quotes from PlunderSwap and customizable slippage.

Explore Every Block, Transaction, and Wallet

ZilStream 2.0 now includes comprehensive blockchain exploration capabilities for detailed on-chain analysis, making it a powerful tool for developers and savvy users.

Feature Breakdown

Block Explorer

View recent blocks as they're produced (every ~1 second) with transaction counts and gas usage.

Transaction Browser

Browse all network transactions and search by hash for detailed information (sender, recipient, value).

Wallet Activity

Enter any wallet address to see its complete, filterable transaction history.

Transactions

Recent transactions on the Zilliqa network.

Transactions

The Engine: A High-Performance Indexer Built for Zilliqa 2.0

What is an Indexer?

Think of it as a powerful telescope. The indexer reads, processes, and **organizes** raw blockchain data so **that lookups are instant**. This solves the challenge of **slow queries**, making the website fast and responsive.

< 1 Second

Real-time sync, processing new blocks almost instantly.

1,000+ Blocks/sec

Historical sync speed when catching up to the chain.

20,000+ Blocks/sec

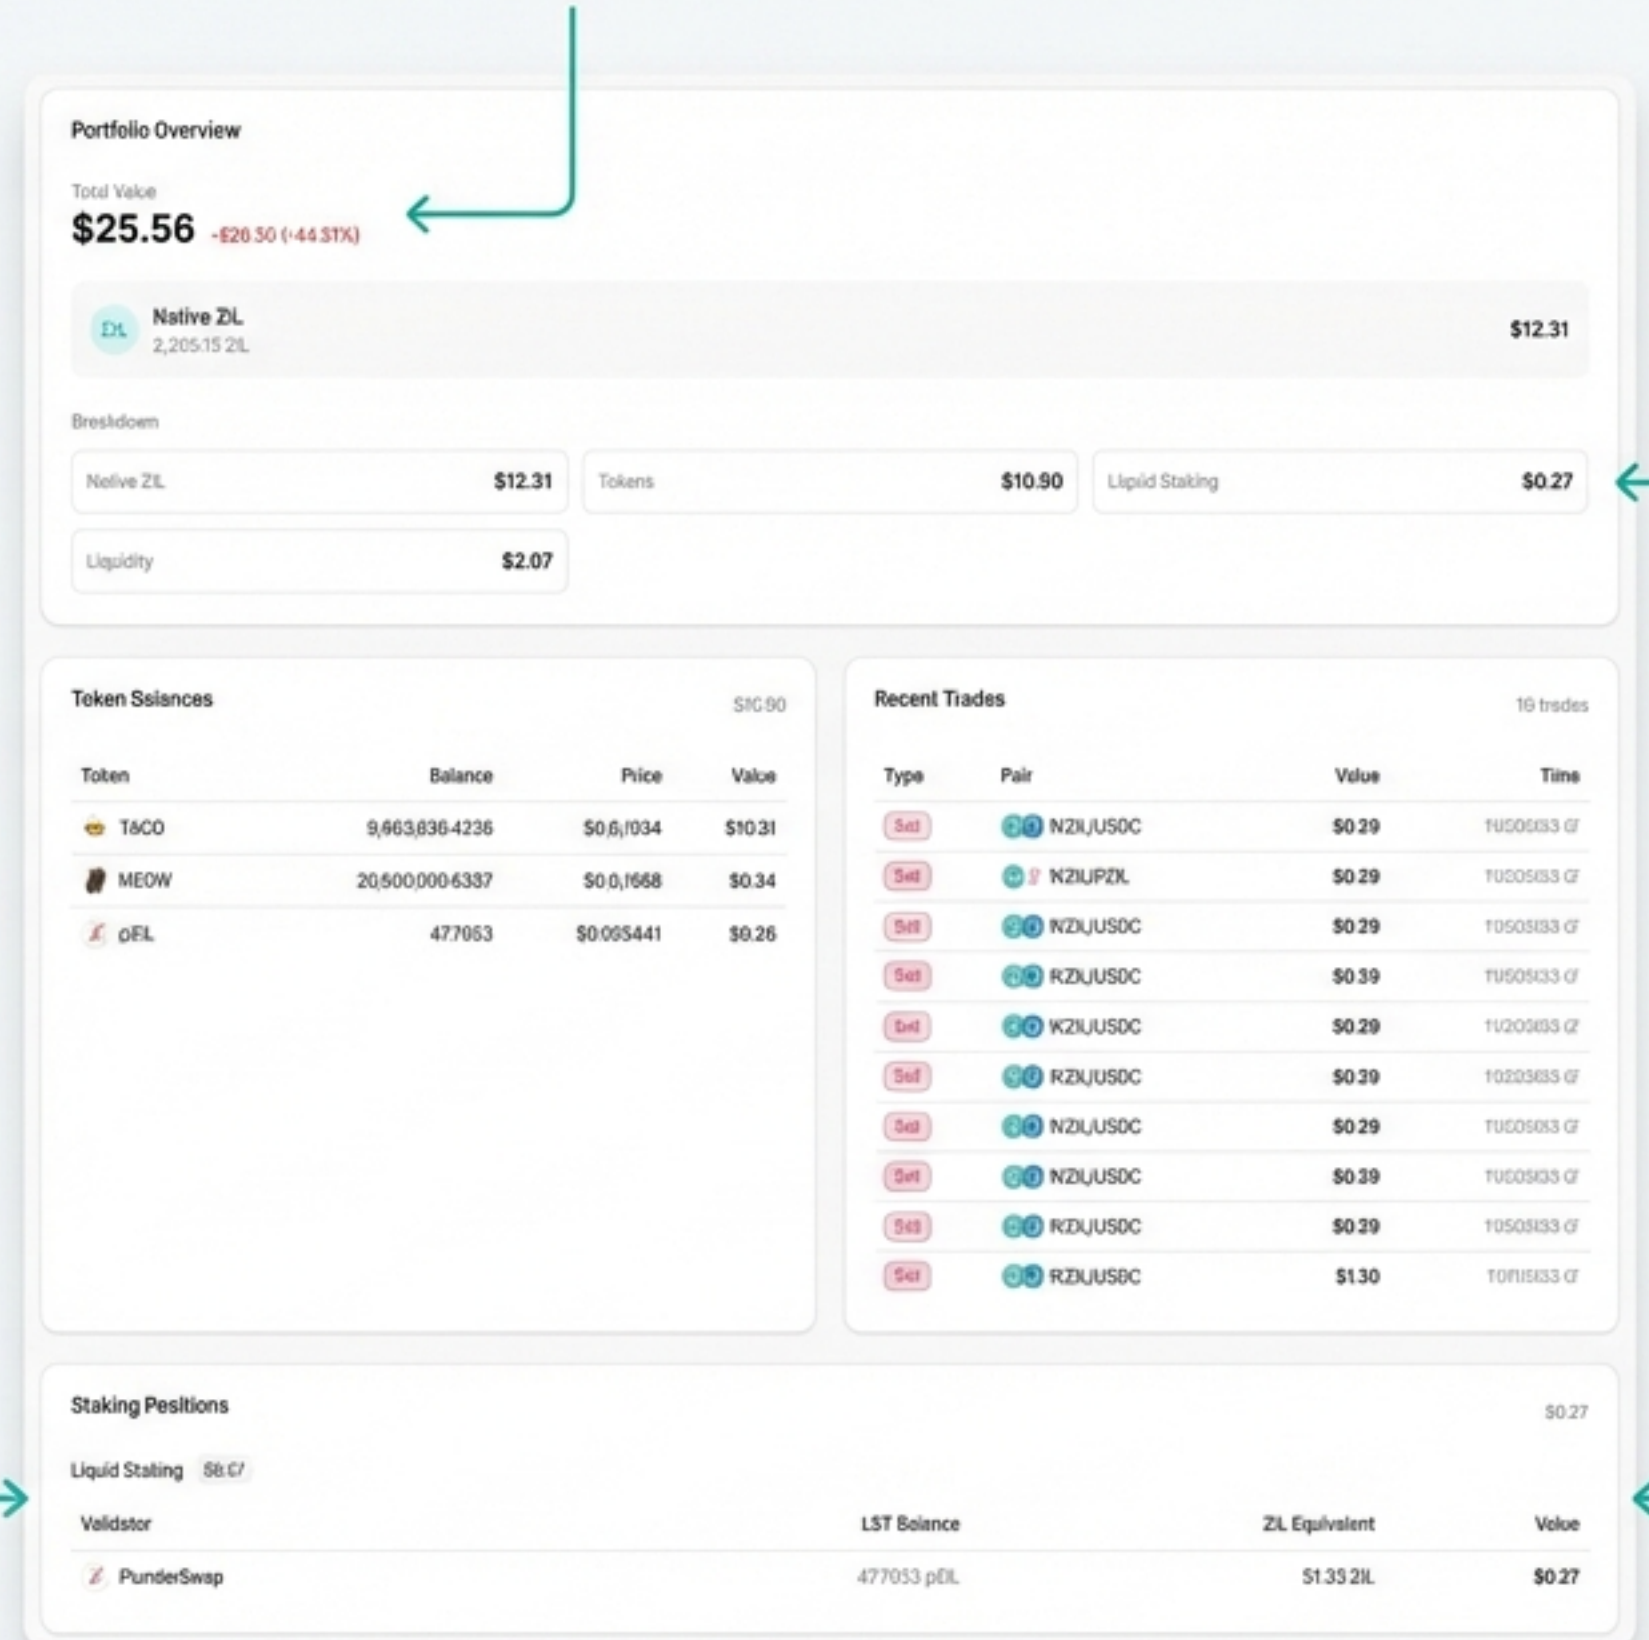

Bulk operations speed for initial data loading.

Your Complete Zilliqa Portfolio in One Place

ZilStream members gain access to exclusive features, starting with a comprehensive personal dashboard that consolidates all on-chain activity.

-  Total portfolio value across all connected wallets.
-  Real-time Profit & Loss (P&L) tracking.
- ****Staking Position Tracking****: Automatically detects positions across 6 major liquid staking providers: PlunderSwap, Encapsulate, TorchWallet, Lithium Digital, Amazing Pool, and StakeShark.
- ****Liquidity Pool Positions****: Tracks active LP positions (V2 & V3), including current value and earned fees.

Advanced Tools for Active Traders and Power Users

Feature 1: Custom Price Alerts

Members can set up custom browser notifications for any token to track market movements without constant monitoring.

- Configure target prices.
- Set percentage change triggers.
- Track multiple alerts.

 **Create Price Alert**

×

Get notified when gZIL reaches your target price.
Current price: \$0.9252

Feature 2: Comprehensive Data Exports

For tax reporting and record-keeping, members can export their complete wallet history with ease.

- Choose specific date ranges.
- Select data to include (trades, transactions).
- Export in multiple formats: Excel, CSV, and for crypto tax platforms like Koinly.

Export Data
Export your trading history and portfolio data for tax reporting or personal records.

A Modern, Sustainable, On-Chain Membership System

The New System: NFT-Based Membership

❌ Old System (Confusing)	✅ New System (Clear & Ownable)
Hold STREAM tokens as % of wallet balance	Ownable NFT with clear expiration
Status was unclear and changing	Fully transferable, verifiable on-chain

Pricing & STREAM Utility

Progressive discounts are offered for longer commitments (1 year/0% to 5 years/25%). The STREAM token provides discounted memberships, fee reduction, and future governance rights.

Smart Contract Security

Powered by a standard ERC-721 contract on the Zilliqa Mainnet, featuring Reentrancy Protection and No Fund Custody for user safety.

Member Benefits

Unlock these features with a ZilStream membership

Personal Dashboard

Track your portfolio, positions, and performance in one place

Advanced Analytics

Access detailed charts and historical data

Data Exports

Export your transaction history and analytics

Price Alerts

Get notified when tokens hit your target price

Mission Accomplished: A Review of All Four Milestones

Milestone 1: New UI & Live Token Feed

✓ COMPLETE

Proposal Commitment:

"ZilStream will roll out a completely refreshed interface... every new token and pair created on-chain will show up live on the site—no manual work needed."

Delivered:

- Complete UI overhaul & 72 custom components
- Automatic token detection

Milestone 2: Transactions, Tokens & Wallets

✓ COMPLETE

Proposal Commitment:

"This update brings deep blockchain browsing to ZilStream. You'll be able to explore individual transactions, token pages, and wallet activity in full detail."

Delivered:

- Full blockchain explorer
- Token pages & wallet activity browser

Milestone 3: Live Charts & Trading ✓ COMPLETE

Proposal Commitment:

"Each trading pair will get its own live, interactive chart powered by TradingView. You'll see trades stream in real-time, and even be able to trade directly from the chart."

Delivered:

- TradingView professional charts
- Real-time trade streaming & integrated swap

Milestone 4: Portfolio Upgrade ✓ COMPLETE

Proposal Commitment:

"This milestone brings account support and a fully revamped portfolio experience... connect multiple wallets, track real-time PNL, set up alerts, and export your transaction history."

Delivered:

- Account system with P&L tracking
- Staking/LP monitoring, alerts & data export

Built on a Modern, Open-Source Foundation

The Platform (Web Application)

- Next.js 15
- React 19
- TypeScript
- Tailwind CSS v4
- wagmi
- TradingView

Hosted on Cloudflare's global CDN.

The Engine (Indexer)

- Go 1.25
- PostgreSQL 15
- Centrifugo

Optimized with adaptive batch processing.

Open Source Commitment

All code remains publicly available for transparency, verification, and contribution.

 github.com/ZilStream/v2

 github.com/ZilStream/indexer

The Future is Sustainable and Community-First

Sustainability

-  NFT memberships provide predictable revenue.
-  Lean Operations: Solo developer with 15+ years experience, efficient infrastructure.
-  Proven Track Record: Continuous operation since March 2021.

Future Innovations

-  AI-Powered Insights
-  Enhanced Block Explorer
-  Additional DeFi Protocol Support

Thank you to the **gZIL Collective** for supporting this development. Your investment has enabled ZilStream to evolve into a comprehensive platform that serves the Zilliqa ecosystem's needs.

Thank you to the **Zilliqa community** for making ZilStream the most visited product in the ecosystem.

"ZilStream 2.0 represents a significant leap forward for Zilliqa ecosystem infrastructure, providing the tools and insights the community needs to participate confidently in on-chain activity."
